Sticky Knowledge about The Stone Age

- ☐ The stone-age period is said to have started around 3 million year ago when humans started to live in Europe.
- ☐ The stone-age was followed by the bronze-age period. This is when humans started to use metal.
- ☐ The bronze-age was followed by the iron-age when tools and weapons became more advanced and were used for farming.
- ☐ During the Palaeolithic Age (old stone age), man gathered food by hunting wild animals and birds, fishing, and collecting fruits and nuts.
- ☐ During the Neolithic Age (towards end of the stone-age), the humans formed settled communities, and domesticated plants and animals for the first time in history.
- ☐ Flint was the most commonly used stone during The Stone Age.
