'I wonder how we can travel there?'

To inspire the children, we introduce a theme every half term which creates curiosity and wonder. The theme this half term is '***I wonder how we can travel there?***' Learning related to the world around us e.g. the seasons and natural world will also run alongside this theme. Our short-term planning and enhancements in our continuous provision incorporates ideas and interests from the children.

<p>Personal, Social and Emotional</p> 	<p>As always, we will be listening to each other's ideas and experiences and sharing them through circle time and promoted activities such as 'weekend news'. There will be more emphasis on really listening to what the person is sharing with them and being encouraged to think of and ask questions based on what they have been told and therefore what they could ask to find out more information. This is great practice for learning how to show good listening skills and interest when conversing with others. The children will now be expected to be mostly self-sufficient in gathering their own resources from the classroom provision, knowing where things are kept and encouraged to be generally more independent - and of course asking for help when needed. The children will show sensitivity to the needs of the other children, changing behaviour accordingly and demonstrating a good understanding of our similarities and differences.</p> <p>We have had lots of discussions about being a team as a class and in our school houses. Teamwork and working together effectively will continue to be a big focus this half term, especially in PE as we begin preparations for Sports Day in Summer 2! The children will be encouraged to try new activities confidently and show resilience and perseverance when things are difficult. Joining the rest of the school for our weekly Celebration Assemblies is something we will start this half term. This will further promote excitement and drive of being one big team / family at Brough Primary School.</p>
